

Clarifying
the Benefits to
Living Beings

Skin evaluation

Benefits

For personal care raw materials and applications, we are able to perform various studies for efficacy and claim support such as sensory test, skin condition evaluation and biological *in vitro* tests.

Support to develop products with unique functions and efficacies

We try to understand the nature of the skin with our reliable technology in order to realize the healthy skin with amino acid derivatives

.....

Our Technology

Generate hypothesis for efficacies of raw materials and formulations

Tests: *in vivo* / *in vitro*

Analysis of mechanism based on dermatological theory
