

Precise synthesis

Benefits

We can manufacture compounds in compliance with GMP.

We can construct robust synthetic processes.

We can manufacture compounds in industrial scale speedily.

Various products can be offered speedily

High-quality products can be offered

Safe and eco-friendly processes can be achieved

Our Technology

Designing synthetic processes

Optimization of synthetic processes

- Optimization of chemical and physical parameters
- Control of co-products

Scaling-up synthetic processes to industrial production facilities

Manufacturing products

- Outfitting to an industrial scale
- ·Plant test
