Eat Well, Live Well.

Making

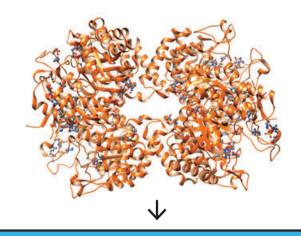

**Biopolymers** 

## Protein manufacturing

## **Benefits**

We can produce proteins that are difficult to express through other expression systems.

Manufacture of proteins in their active form

## Our Technology

Introduction of DNA for the target protein into *Corynebacterium* 

 $\checkmark$ 

Secretory expression trial of the protein in *Corynebacterium* 

 $\checkmark$ 

Development of the improved *Corynebacterium* strain for high-level protein secretion

 $\checkmark$ 

Manufacture of the protein in active form and high purity
